

A new Strategic Plan for NAPWA

Created 4 Jun 2009 - 12:31pm

NAPWA's new strategic plan for 2009 - 2012 presented to NAPWA members at the special general meeting on 3 April 2009.

Strategic Directions 2009 - 2012 guides the activity of the organisation, Board and Secretariat in forthcoming years and articulates the collective vision that NAPWA Members have for the direction of the organisation.

In his forward to Strategic Directions, NAPWA President Robert Mitchell says that implementation of the strategy "will ensure that there is a continuous commitment ... to a strategic engagement with the HIV response in Australia by the peak organisation representing people living with HIV". He also acknowledged the valuable contribution of NAPWA Members, staff, Board and other sector stakeholders throughout the extensive review, consultation and development of Strategic Directions.
