

Positive Voices on PLWHA Victoria website

Created 7 May 2010 - 4:00pm

'Changing Voices, stories of living with HIV' is a series of biographies and videos of people living with HIV, who speak as public educators to audiences such as secondary schools, universities, health care workers and community groups.

You can see these on their website www.plwhavictoria.org.au [1]

PLWHA Victoria has also published "Closer", a book of stories by these people, who participated in creative writing workshops, as part of their training for the Positive Speakers Bureau.

This and other resources are available from [PLWHA Victoria](#) [2]
