
Simple guide to HIV treatment and care for non-nationals

Created 11 Jun 2010 - 11:14am

This online tool explains how our pharmaceutical system works, who qualifies for subsidised treatment (and the alternatives if you don't), plus guides you to where you can find appropriate and affordable care in Australia.

View the factsheet [here](#) [1]

To celebrate this important new addition, our website has also gone multilingual. Every page on the NAPWA site, including the online versions of Positive Living, is now translatable into 53 languages.

So, welcome, bienvenue and ??—to people living with HIV everywhere!
