

Treatments Roadshow

Created 1 Jun 2005 - 4:14pm

[Treataware](#) [1]'s National HIV Treatments Update Road Shows are a series of travelling HIV treatment information sessions which bring important, accurate and up-to-date HIV treatment information and discussion of health management issues to people living with HIV, service providers and health care workers in communities around Australia.

HIV Treatments Road Shows feature speakers on a range of new and emerging topics in HIV, presented by positive people, HIV-experienced clinicians and health care workers, including those working locally.

If your organisation would like to co-host an information event please contact [Brent Beadle](#) [2].
