

Clinical trials information

Effects of HAART on Nervous System Function

This trial is **no longer enrolling**. This may mean the trial is fully enrolled, or that enrolment in the trial has been halted or suspended. You cannot enrol in this trial.

About this trial

This study is observing the way different treatment strategies affect nerve and brain function.

Official title:

Neurology: A Substudy of a Large, Simple Trial Comparing Two Strategies for Management of Anti-Retroviral Therapy (SMART) to Determine the Impact of the Strategies Upon Central and Peripheral Nervous System Function

What is this trial studying?

se_management

How many participants will this trial enrol?

920 (The exact number of participants may be lower or slightly higher than this. Some trials also have specific quotas for participants from each state, city or clinic.)
